

JOHN PATRICK CABIA-AN

WEB DEVELOPER

Live is Maasin City Southern Leyte,
and also born in the same place

Graduated in University of San
Carlos in Certificate of Computer
Technology

Single

I believe that "In every action that
we take, in every decision that
we decide, we must be prepared for
its good and bad side"

MAJOR MILESTONES

I'm working for summer job
and planning to take social
working instead since it is the
only course that is available
in our public schools

When I passed in PN, I live in Cebu. In
PN I learned a lot specially about
how demanding is our course, IT, in
the company, I also learned, how to
manifest the soft skills more than
hard skills. I also had different beliefs
and adapted to different culture and
made a lot of friends.

I'm planning to seek for a
job related to IT, look for a
boarding house, begin my life
as an employee, for me to
help my family and achieve
my goals.
